

Forklift Spreader Bars

Forklift Spreader Bar - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader company all over the globe. They are a devoted manufacturer of spreaders for many different applications like for example the swap bodies, trailers, and handling of containers.

Engineering is done in-house by way of using all of the latest CAD systems and FEM tools. The ELME company presently employs more than 125 personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the world.

The product series of ELME comprise numerous spreaders used for different container and trailer handling operations. Several of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks plus a wide array of additional parts.

ELME manufacturing and production is done in a highly automated purpose built factory. In the year 2008, they created over 1150 spreaders by utilizing top quality components so as to ensure dependability and top standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market feedback and innovative modular spreader concept.
