

Electrical Part for Forklifts

Forklift Electrical Part - Lift trucks along with other forklifts can have particular labels used in certain hazardous locations. The label indicates that this particular model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric lift trucks or ANSI/UL 558 meant for internal combustion engine forklifts.

Applications for marked trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance carrier and Fire Marshall for further info on the permitted uses of industrial powered lift trucks in your application.

If the certain forklift meets the outlined standards, labels may be placed. A labeled lift truck will show the type of designation put on the nameplate and will have a properly corresponding label put.
