

Meritor Parts

Meritor Parts - The Meritor Business is a leading global dealer established upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems along with various modules and parts to the original equipment makers and aftermarket equipment within the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage in the international operations. The business values all their customers and wants to guarantee their success while anticipating their various requirements. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor encourages innovation and collaboration amongst a team of experienced professionals.

By just employing future focused individuals, Meritor strongly thinks these top-caliber people will be able to rapidly adapt to changing surroundings and demonstrate the commitment and performance required so as to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all their staff different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, braking and suspension systems utilized for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the requirements of all their global engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group who is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

The supplier development network is specifically situated so as to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every part of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise comprised of transactional Green Belts who utilize Six Sigma tools to business methods and implement lean techniques.
